

Product Summary

The VP71 XD is our industrial grade digital signage media player with a built in scheduler that allows you to display various content at different times of the day. Timed content is scheduled with a simple text file, which is read from either a USB and/or SD card. (No software required!) The VP71 XD auto powers on, auto plays and auto seamlessly loops audio, video and image files or a mix of files. The VP71 XD may easily convert to an interactive digital signage display coupled with any of our LED push buttons, motion sensors, proximity sensors or weight sensors to uniquely trigger content with any of the following:

Push

Move

Wave

Elevate

Sense

Features & Benefits

- Designed with industrial grade parts & components
- Estimated lifetime: 6+ years running consistently 24/7
- Seamlessly plays, & loops audio, video, image or mixed files
- Built in on board scheduler allowing timed content
